Integral's track spots are designed to fit into Global 3 circuit track such as our Onetrack sold separately. They feature an adjustable zoom beam angle for superb light focus control, 100% aluminium body for a quality finish with impeccable heat dissipation and adjustable rotational and tilt angles for extra flexibility of install. The 3-circuit option means you can turn on and off the spotlights independently from each other on the same length of the track. We welcome enquiries for project customization including Triac, 0-10V and Dali dimmable. App controlled spots can also be provided. Please contact our sales team for more information.
